Preface

The 3ʳᵈ International Conference on ICT in Education, 2018 (ICTE,18) was organised by the Department of Computing, Faculty of Art, Computing, and Creative Industry (FSKIK), Sultan Idris Education University (UPSI), Malaysia and co-organised with the Department of Information Technology Education, Faculty of Education and Teacher Training, Islamic State University of Ar-Raniry Banda Acheh, Indonesia. The main goal is mainly to provide a platform to share and disseminate knowledge and information pertaining to latest Information and Communication Technology (ICT) research, especially research that focuses on education. This conference has brought together researchers, academicians, students and practitioners to exchange and share their experiences, new ideas and research results in all aspects of the main conference theme, Education 4.0 - Future Learning.

All the submissions underwent a strenuous peer review process which comprised expert reviewers. These reviewers were selected from a talented pool of reviewers on the basis of their expertise. The papers were then reviewed based on their contributions, technical content, originality and clarity. The entire process, which includes the submission, review and acceptance processes was done thoroughly by nine editors.

We would like to thank all the members of the editorial board, committees, and reviewers for their excellent and tireless work. We sincerely wish that all attendees benefited from the conference and wish them every success in their research.

Aslina Saad
